SUBJECT INDEX TO VOLUME 77

(ab) = abstract (E) = editorial

Abdomen, pelvis, and thigh, arteries of, 296
Abdominal arteriography, fatality following (ab), 568
Accelerator, 45 mev. medical linear electron, experimental evaluation of physical characteristics of (ab), 377
Adenocarcinoma, metastatic, simulating primary bone tumor, 452
Adenocarcinomas, mammary, of mice inoculated with tumors containing inclusion bodies, influence of roentgen rays on development of (ab), 384
Adrenal glands, normal, roentgenological appearance of (ab), 565
Air embolism following retroperitoneal pneumography; nationwide survey (ab), 1099
American Board of Radiology, 360
American Radium Society, preliminary program, 552
Thirty-ninth Annual Meeting of (E), 541
Aneurysm, cardiac, and myocardial infarction, new sign in diagnosis of (ab), 182
of sinus of Valsalva associated with coarctation (ab), 561
Aneurysms, unperforated aortic sinus, roentgen manifestations of, 263
Angiocardiographic diagnosis of left atrial thrombosis (ab), 374
mixing defects as indicators of left to right shunts (ab), 374
Angiocardiography, abdominal aortography and arteriography of lower extremities, blood pressure and heart rate during (ab), 373
fast, value of, in early diagnosis of patent ductus arteriosus, 235
in preoperative diagnosis of mitral stenosis and insufficiency (ab), 568
retrograde aortography and selective angiocardiography, new manually-controlled pressure injector for, 343
temporary arrest of contrast medium in (ab), 373
Angiographic cassette-changing device, 334
Angiography, carotid cerebral, visualization of basilar, cerebellar, and vertebral arteries during (ab), 941
cerebral, experience with new contrast medium (hypaque) for (ab), 757
cerebral, hypaque in; clinical assessment of its merits in relation to sodium acetrizoate (diaginol) and diodone (ab), 756
radiation protection in (E), 358
thorotrast, granuloma of neck following (ab), 375
Annular sclerosis of valve level of heart and calcification of valves of heart (ab), 938
Anteversion, calculation of the angle of, by means of horizontal lateral roentgenography (ab), 1103
Aorta, ascending, calcification of, 281
descending thoracic, dextroposition of (ab), 561
Aortic body, chemodectoma of (ab), 183
occlusion by aortography, evaluation of (ab), 942
Aortography, abdominal, angiocardiography and arteriography of lower extremities, blood pressure and heart rate during (ab), 373
evaluation of aortic occlusion by (ab), 942
retrograde, angiocardiography and selective angiocardiography, new manually-controlled pressure injector for, 343
Aplasia of lung (ab), 937
Appendix, mucocele of, 647
Approximation technique in treatment of cancer of cervix with irradiation, 388
Arrieta Sánchez, Dr. Luis, honored, 171
Arteries of abdomen, pelvis, and thigh, 296
basilar, cerebellar, and vertebral, visualization of, during carotid cerebral angiography (ab), 941
intrarenal, anatomy of, in health and disease (ab), 1100
Arteriography, abdominal, fatality following (ab), 568
of lower extremities, angiocardiography and abdominal aortography, blood pressure and heart rate during (ab), 373
Arteriomesenteric obstruction of duodenum in adult life and adolescence (ab), 184
occlusion, intermittent, of duodenum (ab), 938
Arteriosclerosis, infantile (ab), 375
Arteriovenous fistula of renal vessels (ab), 564
Artery, left pulmonary, with respiratory obstruction, anomalous course of (ab), 561
Ascites, management of, with radioactive gold (ab), 1107
Atomic energy, future role of, in industry, science and medicine (ab), 190
Atrial enlargement, left, evaluation of recumbent esophagogram in early detection of (ab), 182
thrombosis, left, angiocardiographic diagnosis of (ab), 374
Au 198 in inoperable prostatic cancer: Report of necropsy study, distribution and concentration of radioactive (ab), 1107
Automatic exposure meters for roentgenography, studies on effective principle of (ab), 942

B^{10} (n, α) Li^{7} reaction for acute effects in mouse, thermal neutrons and heavy particles from, relative biological effectiveness of (ab), 944
Barium enema, double contrast, fluoroscopic image

amplification, or what? polyps of colon: how to find them, 700
infarction of colon demonstrated by (ab), 754
report of fatality following; water intoxication, 69
Beta-emitting isotopes, x-radiography with (ab), 382
Beta-radiation, investigations of experimental production of cancer by local effect of (ab), 574
Biliary atresia, congenital, with emphasis on skeletal abnormalities (ab), 941
Biligrafin forte, cholecystangiography using (ab), 940
method, cholangiography by, with or without preceding oral cholecystography; attempt to assess reliability of biligrafin method (ab), 1098
Biological research, radiation dosimetry in (ab), 193
Biopsies, end-of-treatment, prognostic value of, in treatment of cancer of cervix, 448
Biplane angiocardiography, electrokymography and cinefluorography, applications of; cardiac physiology revealed by roentgen ray, 195
Bladder carcinoma, early, use of tantalum 182 in treatment of (ab), 944
comparison of conventional and supervoltage radiation in carcinoma of; symposium (ab), 572
intracavity irradiation of carcinoma of (ab), 1107
Blood pressure and heart rate during angiocardiography, abdominal aortography and arteriography of lower extremities (ab), 373
Bone callus, formation and evolution of, in repair of fractures (ab), 372
changes in hemiplegia of early onset (ab), 755
changes in Kaposi's sarcoma; analysis of 15 cases occurring in Bantu Africans (ab), 372
changes, unusual, in adult; chronic myelogenous leukemia (ab), 567
growth and cortical bone damage, effect of roentgen-ray quality on, 893
lesions, studies of localization of radioactive gallium (Ga^{72}) in (ab), 191
metastases from melanoma, roentgen study of (ab), 372
plasmocystoma of, the so-called solitary (ab), 1104
tumor, primary, metastatic adenocarcinoma simulating, 452
tumors, radiosensitive—radiological aspects (ab), 370
Bones, long, cortical metaphyseal lacunary lesions of, in child and adolescent; their relations with nonosteogenic fibroma of bone; based on 32 observations (ab), 566
pubic, ossification of, at birth (ab), 566
Book Reviews
Intravenöse Cholangiographie; Grundlagen, Technik, Ergebnisse. By Th. Hornykiewytsch, 174
Hematology. By Cyrus C. Sturgis, 174
Pelvo-Spondylitis Ossificans; Rheumatoid or Ankylosing Spondylitis. By Ragnar Romanus and Sven Ydén, 174
Röntgendiagnostik des Hüftgelenks. By R. Glauner and W. Marquardt, 175
Bone and Joint X-Ray Diagnosis. By Max Ritvo, 175
Tumors of Bone; A Roentgenographic Atlas. By Bradley L. Coley and Norman L. Higinbotham, 175
Cancer of the Lung; Pathology, Diagnosis, and Treatment. By Milton B. Rosenblatt and James R. Lisa, 176
Cancer; A Manual for Practitioners. By American Cancer Society, 176
Die Röntgenbildanalyse. Eine Röntgendiagnostische Anleitung für Studierende und Ärtze. By Erich Saupe and W. Teschendorf, 176
Medical Photography; Radiographic and Clinical. By T. A. Longmore, 177
Spléno-Portographie. Étude Radiologique et Clinique de la Circulation Portale Normale et Pathologique. Exploration des Organes Sus-Mésocoliques. By Lucien Leger, 361
Clinical Pathology; Application and Interpretation. By Benjamin B. Wells, 361
Atlas of Exfoliative Cytology. Supplement I. By George N. Papanicolaou, 361
Ankylosing Spondylitis. By B. J. Forestier, F. Jaqueline, and J. Rotes-Querol, 362
Roentgen Interpretation of Fractures and Dislocations. By Joseph Levitin and Ben Colloff, 362
Annual Review of Medicine. Volume 7. 1956. Edited by David A. Rytand, 362
Lungenkrebs und Bronchographie. By H. Anacker, 363
The Treatment of Fractures. Volume I. By Lorenz Böhler, 363
The Thyroid. By Sidney C. Werner, 554
The Blood-Brain Barrier. By Louis Bakay, 554
Nuclear and Radiochemistry; Revised Version of Introduction to Radiochemistry. By Gerhart Friedlander and Joseph W. Kennedy, 555
Oral Cancer and Tumors of the Jaws. By George S. Sharp, Weldon K. Bullock, and John W. Hazlet, 555
Roentgen Signs in Clinical Diagnosis. By Isadore Meschan and R. M. F. Farrer-Meschan, 930
Clinical Roentgenology. Volume IV. The Digestive Tract, the Gall Bladder, Liver and Pancreas, the Excretory Tract and Special Studies Emphasizing Differential Considerations. By Alfred A. de Lorimier, Henry G. Moehring, and John R. Hannan, 930

Die Bronchographie. By E. Stutz and H. Vieten, 1090
Bronchus und Tuberkulose. By A. Huzly and F. Böhm, 1090
Die Lungentuberkulose; Diagnose und Therapie. By P.-G. Schmidt, 1091
Principles of Chest X-Ray Diagnosis. By George Simon, 1091
Diseases of the Chest. By H. Corwin Hinshaw and L. Henry Garland, 1092
Bowel, entire small, volvulus of, in immediate postoperative period (ab), 754
Breast, cancer of, 1,661 patients; considerations in failure to cure after radical mastectomy, 421
carcinoma, advanced, management of; with special reference to combined radiation and hormone therapy, 438
treatment of inoperable carcinoma of, with conventional 250-kv. irradiation as compared with 2-mv. irradiation; symposium on supervoltage versus conventional radiation (ab), 571
Bronchial carcinoma masquerading as thin-walled cyst, 1051
rising in lung cyst, 1048
Bronchoesophageal fistula, broncholithiasis neglected cause of (ab), 181
Bronchogenic cysts, mediastinal carinal (ab), 560
Broncholithiasis, neglected cause of bronchoesophageal fistula (ab), 181
Brucellosis, pulmonary, chronic localized (ab), 560

Caffey, Dr. John, delivers Mackenzie Davidson Memorial Lecture, 360
Calcaneus, fracture of promontory of (ab), 567
Calcification, cervical disk, in childhood (ab), 566
in choroid plexus of lateral ventricle, incidence and roentgenographic significance of (ab), 936
in solitary nodules of lung, 1023
of ascending aorta, 281
of valves of heart and annular sclerosis of valve level of heart (ab), 938
placental, roentgen demonstration of (ab), 187
Calcifications, intra-abdominal egg-shell, due to silicosis (ab), 754
Calcified polyp of heart (ab), 752
Campbell, Dr. John A., to deliver Freedman Lectures, 748
Canadian Association of Radiologists 20th Annual Meeting, 173
Cancer, investigations of experimental production of, by local effect of beta-radiation (ab), 574
lip, cobalt 60 therapy of; with block dissection of lymph nodes, 815
of breast, 1,661 patients; considerations in failure to cure after radical mastectomy, 421
of cervix, anatomy of female pelvis in relation to, 796
of cervix, approximation technique in treatment of, with irradiation, 388
of cervix, prognostic value of end-of-treatment biopsies in treatment of, 448
of cervix, results of re-irradiation in (ab), 378
of colon, negative x-ray report in (ab), 183
of pancreas, roentgenologic findings in stomach and duodenum in (ab), 185
patient; President's Address, 385
prostatic, distribution and concentration of radioactive Au 198 in inoperable, report of necropsy study (ab), 1107
prostatic, urethrocystography in differential diagnosis of (ab), 564
surgical spread of, in urology (ab), 1100
use of radioactive strontium Sr^{89} in treatment of (ab), 189
Cancers, advanced primary head and neck, planned combination of surgery and radiation in treatment of, 397
Carcinoma, advanced breast, management of; with special reference to combined radiation and hormone therapy, 438
bronchial, arising in lung cyst, 1048
bronchial, masquerading as thin-walled cyst, 1051
digestive tract, clinical considerations on treatment of, with radioactive isotopes (ab), 573
early bladder, use of tantalum 182 in treatment of (ab), 944
endometrial, study of 531 cases of (ab), 188
metastatic thyroid; acute myeloid leukemia following prolonged iodine-131 therapy for (ab), 380
of bladder, comparison of conventional and supervoltage radiation in; symposium (ab), 572
of bladder, intracavity irradiation of (ab), 1107
of breast, inoperable, treatment of, with conventional 250-kv. irradiation as compared with 2-mv. irradiation; symposium on supervoltage versus conventional radiation (ab), 571
of cervix, dose distribution and results in, 803
of cervix, invasive, irradiation and surgery in management of (ab), 188
of esophagus, 818
of lung, 826
of maxillary antrum, role of radioactive isotopes in, 415
of mouth and carcinoma of testis; superior value of supervoltage irradiation in special situations; symposium on supervoltage versus conventional radiation (ab), 570
of uterine cervix, positioning of pelvic portals of external irradiation in (ab), 378
Cardiac aneurysm and myocardial infarction, new sign in diagnosis of; respiratory phenome-

non, effort test, paradoxical expansion of heart (ab), 182
functional status, protein-bound-iodine plasma value, and blood nonprotein nitrogen, correlation of iodine 131 clearance rate factors with, 847
physiology revealed by roentgen ray; applications of electrokymography, biplane angiocardiography and cinefluorography, 195
veins and large venous trunks, venous communications between, in superior part of mediastinum (ab), 1097
ventriculography; direct transthoracic needle puncture opacification of left (or right) ventricle, 207
Cassette-changing device, angiographic, 334
Cataract and survival studies of Swiss mice; relative biological effectiveness of fast-neutron and x-radiation (ab), 945
Cataracts, radiation, and relationship to dose, clinical study of, 759
Cephalopelvimetry, correlation of, to obstetrical outcome with special reference to radiologic disproportion (ab), 1099
Cerebral angiography, carotid, visualization of basilar, cerebellar, and vertebral arteries during (ab), 941
experience with new contrast medium (hypaque) for (ab), 757
hypaque in; clinical assessment of its merits in relation to sodium acetrizoate (diaginol) and diodone (ab), 756
Cervical disk calcification in childhood (ab), 566
Cervix, anatomy of female pelvis in relation to cancer of, 796
approximation technique in treatment of cancer of, with irradiation, 388
clearance of radioactive sodium from, in women with normal menstrual cycles, primary dysmenorrhea, and nonorganic pelvic pain, and in postmenopausal individuals (ab), 573
dose distribution and results in carcinoma of, 803
irradiation and surgery in management of invasive carcinoma of (ab), 188
prognostic value of end-of-treatment biopsies in treatment of cancer of, 448
results of re-irradiation in cancer of (ab), 378
uterine, positioning of pelvic portals for external irradiation in carcinoma of (ab), 378
Chemodectoma of aortic body (ab), 183
Chest teleroentgenograms, esophageal-pleural stripe on (ab), 937
trauma, unusual pulmonary changes secondary to, 1059
Cholangiogram, intravenous, interpretation of (ab), 939
Cholangiography by biligrafin method with or without preceding oral cholecystography; attempt to assess reliability of biligrafin method (ab), 1098
excretory (ab), 562
intravenous, in presence of jaundice (ab), 184
intravenous; pitfalls in interpretation (ab), 1098
Cholecystangiography using biligrafin forte (ab), 940
Cholecystogastric fistula (ab), 184
Cholecystographic media, oral, evaluation of two recently introduced, 61
Cholecystography, oral, cholangiography by biligrafin method with or without preceding; attempt to assess reliability of biligrafin method (ab), 1098
phototimed erect compression spot films in, 55
Cholegraphy, relative merits of oral and intravenous methods of (ab), 939
Chondroblastoma, benign (ab), 371
Choroid plexus of lateral ventricle, incidence and roentgenographic significance of calcification in (ab), 936
Christie, Arthur Carlisle, 1879–1956, obituary, 543
portrait, 543
Cinefluorography, electrokymography and biplane angiocardiography, applications of; cardiac physiology revealed by roentgen ray, 195
Cine recordings, simultaneous, hysterosalpingofluoroscopy with (ab), 186
Cleidocranial dysostosis, ossification of skull in (ab), 936
Coarctation, aneurysm of sinus of Valsalva associated with (ab), 561
Cobalt 60 beam therapy; three years experience at Montefiore Hospital (ab), 376
teletherapy, course in, 929
therapy of lip cancer; with block dissection of lymph nodes, 815
Colon, high kilovoltage method of investigation of, as routine roentgenological procedure, 690
infarction of, demonstrated by barium enema (ab), 754
lymphangioma of; roentgen aspects (ab), 1098
negative x-ray report in cancer of (ab), 183
polyps of: how to find them; barium enema, double contrast, fluoroscopic image amplification, or what? 700
Contrast medium in angiocardiography, temporary arrest of (ab), 373
new, (hypaque), experience with, for cerebral angiography (ab), 757
precipitation of, in gallbladder (ab), 184
Coronary arteries, roentgenographic visualization of, 274
Coronoid processes, mandibular block by osteochondroma of (ab), 751
Cortical bone damage and bone growth, effect of roentgen-ray quality on, 893
Costophrenic sinus sign; roentgenographic detection of minimal pneumothorax in lateral decubitus position, 1066
Cysts, mediastinal carinal bronchogenic (ab), 560

paraphyseal or colloid, of third ventricle (ab), 559

Dextroposition of descending thoracic aorta (ab),
Digestive tract carcinoma, clinical considerations on treatment of, with radioactive isotopes (ab), 573
Dilatation, regulative and myogenic, of heart (ab), 938
Diverticulosis and diverticulitis: roentgen findings and their interpretation, 726
Diverticulum, Meckel's, 644
Dosage, age and survival, influence of, on effects of multiple intravenous injections of radioactive gold colloids in dogs, 576
fractionated, effects of conventional and high-energy x-rays and electrons in, on rats (ab), 946
Dose, clinical study of radiation cataracts and relationship to, 759
distribution and results in carcinoma of cervix; comparison of conventional high voltage therapy including vaginal cone therapy with supervoltage therapy, 803
distribution of fast electrons, plexiglass as phantom material for measurement of (ab), 194
integral, simplified method of estimating, in radiotherapeutic practice (ab), 379
permissible, problems with special reference to diagnostic procedures, 138
rate, influence of treatment cones on, 873
specification and radiation distribution in volume implants of radioactive seeds, 863
Doses, whole-body radiation, estimation of, in accidental fission bursts, 144
Dosimetry in contact roentgen therapy (ab), 193
of multiple radiation fields by superposition of photographic films, 869
radiation, in biological research (ab), 193
Double contrast, barium enema, fluoroscopic image amplification, or what?; polyps of colon: how to find them, 700
Duodenal bulb and stomach, gallstones impacted in, demonstrated by roentgenologic examination, 40
involvement in regional enteritis, 639
Duodenum, arteriomesenteric obstruction of, in adult life and adolescence (ab), 184
intermittent arteriomesenteric occlusion of (ab), 938
Dysostosis, cleidocranial, ossification of skull in (ab), 936
Dysplasia, fibrous, of skull and facial bones, roentgen features of, 71
progressive diaphyseal (Engelmann's disease) (ab), 369

Eastern Conference of Radiologists to be held in New York City, 360
Editorials
Roentgenologic manifestations of emotional disturbances in the stomach, 162
Radiation protection in angiography, 358
The Thirty-ninth Annual Meeting of the American Radium Society, 541
Arthur Carlisle Christie, 1879–1956, 543
William Albert Evans, 1907–1956, 546
The gastrointestinal radiologist, 745
The philosophy underlying radiation protection, 914
George E. Pfahler, 1874–1957, 920
Charles Luther Hinkel, 1910–1956, 923
Clinical radiology and studies of pulmonary function, 1085
Theodore West, 1885–1957, 1088
Effusions due to malignancy, radioyttrium (Y^{90}) for palliative treatment of (ab), 191
Eisenmenger complex, roentgenologic aspects of, 248
Electrokymography, biplane angiocardiography and cinefluorography, applications of; cardiac physiology revealed by roentgen ray, 195
Electron beam, 6 mev., and 180 kv. roentgen rays, action of, on testicular tissue of rat (ab), 572
Electrons and roentgen-rays, conventional and high-energy, effects of, in fractionated dosage on rats (ab), 946
Embolism, air, following retroperitoneal pneumography; nationwide survey (ab), 1099
pulmonary oil; complication of hysterosalpingography, 1055
Emotional disturbances in stomach, roentgenologic manifestations of (E), 162
En bloc in continuity resection of internal mammary lymph node chain, radical mastectomy with, 431
Endometrial carcinoma, study of 531 cases of (ab), 188
Engelmann's disease (progressive diaphyseal dysplasia) (ab), 369
Epigastric tumors, intraserosal and extraserosal parietography applied to study of (ab), 562
Erythema, the influence on skin, of protraction and fractionation of radiation with Sr^{90} (ab), 1108
Esophageal-pleural stripe on chest teleroentgenograms (ab), 937
segment, distal, anatomy and motility of; studies in children with image amplifier (ab), 752
varices, roentgenologic diagnosis of, 599
Esophagogram, recumbent, in early detection of left atrial enlargement, evaluation of (ab), 182
Esophagus, carcinoma of, 818
invagination of, in hiatus hernia (ab), 753
Euthyroid persons and patients with exophthalmic goiter, studies of inhibitory effect of l-triiodothyronine on thyroidal I^{131} uptake in (ab), 943

EVANS, WILLIAM ALBERT, 1907–1956, obituary, 546
portrait, 546
EXFOLIATIVE CYTOLOGY as aid in differential diagnosis of gastric lesions discovered roentgenologically, 9
EXTRAHEPATIC obstruction, portal hypertension due to (ab), 942

FAST-NEUTRON and x-radiation, relative biological effectiveness of; survival and cataract studies of Swiss mice (ab), 945
FEMORAL neck, arterial supply to the head of the femur; anartiographic study *in vivo* of lesions attending fracture of the (ab), 1103
FEMUR, arterial supply to the head of the; an arteriographic study *in vivo* of lesions attending fracture of the femoral neck (ab), 1103
FETAL circulatory system, roentgen demonstration of gas in, valuable sign of fetal death (ab), 569
length in utero, roentgenologic determination of (ab), 940
FIBROMA OF BONE, nonosteogenic, relations of cortical metaphyseal lacunary lesions of long bones in child and adolescent with; based on 32 observations (ab), 566
FIBROUS dysplasia of skull and facial bones, roentgen features of, 71
swelling, familial, of jaws (ab), 936
FISSION BURST, accidental, estimation of whole-body radiation doses in, 144
FLUOROSCOPE, electronic position timer for (ab), 376
FLUOROSCOPIC IMAGE amplification, barium enema, double contrast, or what?; polyps of colon: how to find them, 700
FOLIC ACID antagonist therapy, scurvy following (ab), 568
FRACTURE of promontory of calcaneous (ab), 567
FRACTURES, formation and evolution of bone callus in repair of (ab), 372

Ga^{72} (radioactive gallium), studies of localization of, in bone lesions (ab), 191
GALLBLADDER, precipitation of contrast medium in (ab), 184
relationship of stenosis to Rokitansky Aschoff sinuses of, 47
GALLSTONE ILEUS, 684
GALLSTONES impacted in stomach and duodenal bulb demonstrated by roentgenologic examination, 40
GAMMA RAYS, biological effects of fast neutrons, 524
neutrons, and x-rays, relative biological effectiveness of, for production of lens opacities (ab), 945
GAS in fetal circulatory system, roentgen demonstration of, valuable sign of fetal death (ab), 569
GASTRIC lesions discovered roentgenologically, exfoliative cytology as aid in differential diagnosis of, 9
ulcer in older age group, 25
ulcers, multiple chronic; report of case with four simultaneous ulcers, 623
GASTROESOPHAGEAL REFLUX, statistical study of hiatus hernia and (ab), 561
GASTROINTESTINAL and respiratory tracts, aeration of, during first minute of neonatal life (ab), 569
radiologist (E), 745
tract, malignant lymphoma of; roentgenographic considerations (ab), 1097
GIARDIA LAMBLIA infestation, intestinal changes in, 670
GOITER, exophthalmic, studies of inhibitory effect of l-triiodothyronine on thyroidal I^{131} uptake in euthryoid persons and patients with (ab), 943
GOITERS, intrathoracic, radiologic studies of, by means of transverse axial stratigraphy (ab), 182
GRANULOMA, eosinophilic, of skull, button sequestrum of (ab), 936
of neck following thorotrast angiography (ab), 375

HAMARTOMAS and tuberculomas of lung, 1013
HEAD and neck cancers, advanced primary, planned combination of surgery and radiation in treatment of, 397
HEART, annular sclerosis of valve level of, and calcification of valves of heart (ab), 938
calcified polyp of (ab), 752
disease, results of treatment with radioactive iodine in (ab), 1106
rate and blood pressure during angiocardiography, abdominal aortography and arteriography of lower extremities (ab), 373
regulative and myogenic dilatation of (ab), 938
HEMANGIOMA of liver diagnosed by splenoportography, 332
of stomach with roentgenologic diagnostic point, 38
HEMANGIOPERICYTOMA; report of case with special reference to roentgen therapy, 347
HEMATOLOGICAL PRACTICE, routine, radioactive iron studies in (ab), 381
HEMICRANIOSIS of Brissaud-Lereboullet (ab), 181
HEMIPLEGIA of early onset, bone changes in (ab), 755
HEMODYNAMICS, relationship of roentgenographic findings to, in mitral stenosis (ab), 1097
HEPATOLIENOGRAPHIC AGENT, new: tin oxide, 64
HIATUS hernia and gastroesophageal reflux, statistical study of (ab), 561
invagination of esophagus in (ab), 753
HICKEY MEMORIAL LECTURE, 1957, 929
HIGH KILOVOLTAGE METHOD of investigation of colon as routine roentgenological procedure, 690
HINKEL, CHARLES LUTHER, 1910–1956, obituary, 923
portrait, 923

Hip joint, studies of, by means of lateral acetabular roentgenograms (ab), 1102
Histoplasmosis and tuberculosis, calcified intrathoracic lesions caused by, 1034
Hormone therapy, and radiation combined, management of advanced breast carcinoma with special reference to, 438
Human ovum, dead and retained, hysterography in diagnosis of (ab), 187
Humerus in rat, fractured, uptake of radiosulfur in (ab), 191
Hypaque in cerebral angiography; clinical assessment of its merits in relation to sodium acetrizoate (diaginol) and diodone (ab), 756
(new contrast medium), experience with, for cerebral angiography (ab), 757
ninety per cent, for rapid intravenous roentgenography (ab), 368
Hypercholesteremic xanthomata of tendons, 109
Hypertension, irradiation-induced malignant; cured by nephrectomy (ab), 1108
Hyperthyroidism, immediate and continuous uptake studies of I^{131} in diagnosis and treatment of (ab), 573
new procedure for determining mass of thyroid gland for radioiodine treatment of; pneumothyroid (ab), 379
Hysterography in diagnosis of dead and retained human ovum (ab), 187
Hysterosalpingofluoroscopy with simultaneous cine recordings (ab), 186
Hysterosalpingography, complication of; pulmonary oil embolism, 1055

I^{131}, correlation between the uptake of, protein-bound iodine and cholesterol levels in normal and abnormal thyroid states (ab), 1105
immediate and continuous uptake studies of, in diagnosis and treatment of hyperthyroidism (ab), 573
uptake, thyroidal, studies of inhibitory effect of l-triiodothyronine on, in euthyroid persons and patients with exophthalmic goiter (ab), 943
uptake and PBI^{131} levels up to the age of 18. Thyroid function studies in children: Normal values for (ab), 1106
Iliosacral joint, accessory, and its roentgen appearance (ab), 941
Image amplifier, studies in children with; anatomy and motility of distal esophageal segment (ab), 752
intensification, clinical experience with (ab), 1108
Infants in incubator, roentgenographic examination of; new device insuring environmental constancy (ab), 758
interchanged, use of roentgen rays to establish identity of (ab), 569
Infarction of colon, demonstrated by barium enema (ab), 754
Inter-American Congress of Radiology, Fifth (ab), 193
Internal emitters, relative biological effectiveness of (ab), 944
International Medical-Surgical Meetings, organization of, 929
Intersexuality, Morgagni's syndrome and its relationship to (ab), 369
Interstitial implantation of radioactive materials, study of methods for; filaments containing Y^{90}, 852
Intestinal changes in Giardia lamblia infestation, 670
Intestine, mesenteric small, mucosal pattern of—anatomic study, 651
Intra-abdominal egg-shell calcifications due to silicosis (ab), 754
Intradental resorption, progressive, in permanent teeth, roentgenologic differential diagnosis of (ab), 751
Intrarenal arteries, anatomy of, in health and disease (ab), 1100
Invagination of esophagus in hiatus hernia (ab), 753
Iodine 131 clearance rate factors, correlation of, with cardiac functional status, protein-bound-iodine plasma values, and blood nonprotein nitrogen, 847
therapy, prolonged, for metastatic thyroid carcinoma, acute myeloid leukemia following (ab), 380
Irradiation and surgery in management of invasive carcinoma of cervix (ab), 188
approximation technique in treatment of cancer of cervix with, 388
conventional 250-kv., treatment of inoperable carcinoma of breast with, as compared with 2-mv. irradiation; symposium on supervoltage versus conventional radiation (ab), 571
external, positioning of pelvic portals for, in carcinoma of uterine cervix (ab), 378
-induced malignant hypertension; cured by nephrectomy (ab), 1108
of carcinoma of the bladder, intracavity (ab), 1107
role of, in treatment of primary malignant lymphoma of stomach (ab), 943
single total body, mortality of rhesus monkeys after, 899
supervoltage, superior value of, in special situations; carcinoma of mouth and carcinoma of testis; symposium on supervoltage versus conventional radiation (ab), 570
with roentgen rays, preservation of potatoes after (ab), 574
Isotope radiographs for localization of renal calculi during surgery; new truly portable radiographic unit using radioisotope (thulium 170) as energy source (ab), 1100

ISOTOPES, beta-emitting, x-radiography with (ab), 382
radioactive, role of, in carcinoma of maxillary antrum, 415

JAUNDICE, intravenous cholangiography in presence of (ab), 184
JAWS, familial fibrous swelling of (ab), 936
JEJUNUM, leiomyoma of, with hemorrhage (ab), 753
JOINT, accessory iliosacral, and its roentgen appearance (ab), 941
hip, studies of, by means of lateral acetabular roentgenograms (ab), 1103

KAPOSI'S SARCOMA, bone changes in (ab), 372
KIDNEY, sponge, contribution to study of (ab), 187
sponge, and nephrocalcinosis (ab), 367
tumors, right, phlebography of inferior vena cava in exploration of (ab), 368
KNEE joint and tibia of six-week-old mice, effect of x-rays on uptake of phosphorus 32 by (ab), 946

LABOR, radiological study of placental stage of (ab), 562
LEGG-PERTHES disease (ab), 370, 1106
LEIOMYOMA of jejunum with hemorrhage (ab), 753
LESIONS attending fracture of the femoral neck; arterial supply to the head of the femur; an arteriographic study *in vivo* of (ab), 1103
cortical metaphyseal lacunary, of long bones in child and adolescent; their relations with nonosteogenic fibroma of bone; based on 32 observations (ab), 566
ulcerating, of stomach, roentgenologic study of, 612
LEUKEMIA, acute myeloid, following prolonged iodine-131 therapy for metastatic thyroid carcinoma (ab), 380
chronic myelogenous; unusual bone changes in adult (ab), 567
LIGAMENTS, anterior longitudinal, infectious spondylitis as result of injury to; contribution to spondylitis subsequent to paravertebral anesthesia (ab), 755
LIP cancer, cobalt 60 therapy of; with block dissection of lymph nodes, 815
LIVER, hemangioma of, diagnosed by splenoportography, 332
metastases, statistical appraisal of use of radioactive iodinated human serum albumin for detection of (ab), 379
method for visualization of configuration and structure of, 455
LOBE, upper, tuberculosis, segmental localization of; rarity of anterior involvement, 1042
LOS ANGELES RADIOLOGICAL SOCIETY to sponsor Ninth Annual Mid-Winter Radiological Conference, 360
LUNG, aplasia of (ab), 937
calcification in solitary nodules of, 1023
carcinoma of, 826
cyst, bronchial carcinoma arising in, 1048
excised, visibility of pulmonary structure with special reference to, 1071
expansion patterns following upper lobe segmental resection (ab), 752
left, traumatic torsion of (ab), 752
lesions, tuberculous, testing of photofluorogram interpreters by use of phantoms which produce false infiltrates similar to, 1077
LYMPH NODE chain, internal mammary, radical mastectomy with *en bloc* in continuity resection of, 431
LYMPH NODES, block dissection of; cobalt 60 therapy of lip cancer, 815
enlarged, and lymphatic vessels, new method for visualization of; lymphadenography (ab), 375
LYMPHADENOGRAPHY; new method for visualization of enlarged lymph nodes and lymphatic vessels (ab), 375
LYMPHANGIOMA of colon; roentgen aspects (ab), 1098
LYMPHATIC dissemination of radiogold in presence of lymph node metastases (ab), 190
tissues with antitoxin-producing ability, correlation of early radiation changes in (ab), 194
LYMPHOMA, malignant, of gastrointestinal tract; roentgenographic considerations (ab), 1097
primary malignant, of stomach, role of irradiation in treatment of (ab), 943

MALIGNANT effusions, treatment of, by intracavitary injection of radioactive colloidal gold, 486
MAMMARY tumor progression, roentgen screening of, 131
MANDIBULAR BLOCK by osteochondroma of coronoid processes (ab), 751
MAXILLARY ANTRUM, role of radioactive isotopes in carcinoma of, 415
MECKEL'S diverticulum, 644
MEDIASTINAL carinal bronchogenic cysts (ab), 560
MEDIASTINUM, venous communications between cardiac veins and large venous trunks in superior part of (ab), 1097
MEGADUODENUM in adult, 634
MEGAVOLT ELECTRON THERAPY, physical aspects of (ab), 573
MELANOMA, roentgen study of bone metastases from (ab), 372
MESOTHELIOMA, localized, of pleura (ab), 1097
45 MEV. MEDICAL LINEAR ELECTRON ACCELERATOR, experimental evaluation of physical characteristics of (ab), 377
MICROLITHIASIS, pulmonary alveolar, familial occurrence of, 947
pulmonary, clinical review of (ab), 559
MILK DRINKER'S SYNDROME, roentgen manifestations of (ab), 376

Mitral stenosis and insufficiency, angiocardiography in preoperative diagnosis of (ab), 568
relationship of roentgenographic findings to hemodynamics in (ab), 1097
Morgagni's syndrome and its relationship to intersexuality (ab), 369
Motor vehicle accidents, roentgenologic aspects of, 115
Mouth and testis, carcinoma of; superior value of supervoltage irradiation in special situations; symposium on supervoltage versus conventional radiation (ab), 570
Mucocele of appendix, 647
Mucosal pattern of mesenteric small intestine—anatomic study, 651
Multiple diaphysial sclerosis; report of case of possible typhoid etiology, 89
Myocardial infarction and cardiac aneurysm; new sign in diagnosis of (ab), 182

National Committee on Radiation Protection and Measurement, preliminary statement of; maximum permissible radiation exposures to man, 910
Neck and head cancers, advanced primary, planned combination of surgery and radiation in treatment of, 397
dissection, radical, roentgen changes following (ab), 937
Nephrectomy, irradiation-induced malignant hypertension cured by (ab), 1108
Nephrocalcinosis and sponge kidney (ab), 367
Neurology of cervical spine, some aspects of (ab), 1101
Neutrons, fast, and gamma rays, biological effects of, 524
x-rays, and gamma rays, relative biological effectiveness of, for production of lens opacities (ab), 945
Ninth Annual Mid-Winter Radiological Conference, 171
Nitrogen mustard and radioactive colloidal gold in treatment of serous effusions of neoplastic origin, comparative evaluation of (ab), 190
Nuclear medicine, special examination for certification in, 173
Nuclear weapons tests, radioactivity in thyroid glands following (ab), 383

Oak Ridge Institute of Nuclear Studies presents thyroid-uptake seminars, 171
Orbits, contribution to roentgen manifestations of space-occupying processes of (ab), 750
Ossification of pubic bones at birth (ab), 566
of skull in cleidocranial dysostosis (ab), 936
Osteochondroma of coronoid processes, mandibular block by (ab), 751
Osteogenic sarcoma in rabbits, influence of splenectomy on induction of (ab), 384
Osteomyelography and transosseous venography, dangers and technique of (ab), 757
Osteopetrosis (ab), 941
Osteophytosis, vertebral; clinical syndrome (ab), 1102
Otto pelvis; report of two cases associated with labor (ab), 186
Ovaries, protection of, from radiation (ab), 189

Pancreas, roentgenologic findings in stomach and duodenum in cancer of (ab), 185
Pancreatitis, acute; preliminary investigation of new radiodiagnostic sign (ab), 185
Pantopaque pulmonary embolism (ab), 938
Paraphyseal or colloid cysts of third ventricle (ab), 559
Paravertebral anesthesia, contribution to spondylitis subsequent to; infectious spondylitis as result of injury to anterior longitudinal ligaments (ab), 755
Parietography, intraserosal and extraserosal, applied to study of epigastric tumors (ab), 562
Patent ductus arteriosus, value of fast angiocardiography in early diagnosis of, 235
Pelvimetry, clinical, in teaching centers (ab), 186
Pelvis, abdomen, and thigh, arteries of, 296
female, anatomy of, in relation to cancer of cervix, 796
"Otto" (ab), 186
Percutaneous splenoportal venography utilizing rapid serial roentgenography, 312
splenoportography, diagnostic importance of (ab), 569
Periarthritis calcarea, observations on, 93
Permissible dose problems with special reference to diagnostic procedures, 138
Peteosthor-therapy of children, serious radiation damages following (ab), 383
Pfahler, George E., 1874–1957, obituary, 920
portrait, 920
Phantom material for measurement of dose distribution of fast electrons, plexiglass as (ab), 194
Phlebographic study of superior vena cava, 289
Phlebography of inferior vena cava in exploration of right kidney tumors (ab), 368
vertebral trans-skeletal (ab), 374
Phosphorus 32, effect of x-rays on uptake of, by knee joint and tibia of six-week-old mice (ab), 946
Photofluorogram interpreters, testing of, by use of phantoms which produce false infiltrates similar to tuberculous lung lesions, 1077
Photographic films, dosimetry of multiple radiation fields by superposition of, 869
Phototimed erect compression spot films in cholecystography, 55
Phototiming, present status of, 1
Plasmocystoma of bone, the so-called solitary (ab), 1104
Pleura, localized mesothelioma of (ab), 1097
Plexiglass as phantom material for measurement of dose distribution of fast electrons (ab), 194

Pneumatosis cystoides intestinalis, 678
Pneumography, retroperitoneal, air embolism following; nationwide survey (ab), 1099
Pneumothorax, minimal, roentgenographic detection of, in lateral decubitus position; costophrenic sinus sign, 1066
Pneumo-thyroid; new procedure for determining mass of thyroid gland for radioiodine treatment of hyperthyroidism (ab), 379
Polyps of colon: how to find them; barium enema, double contrast, fluoroscopic image amplification, or what?, 700
Portal circulation, splenoportal venography for evaluating abnormalities of (ab), 757
hypertension due to extrahepatic obstruction (ab), 942
hypertension, splenoportography as valuable adjunct in study of (ab), 374
Portography, splenic, roentgenologic findings in, 324
Posterior fossa and adjoining cervical subarachnoid space, contribution to methods of filling, with small quantities of air (ab), 181
Potatoes, preservation of, after irradiation with roentgen rays (ab), 574
Pressure injector, new manually-controlled, for angiocardiography, retrograde aortography and selective angiocardiography, 343
Prostatic cancer, urethrocystography in differential diagnosis of (ab), 564
Protection, radiation, in angiography (E), 358
Protein-bound-iodine and cholesterol levels in normal and abnormal thyroid states, correlation between the uptake of I^{131} (ab), 1105
plasma values, blood non-protein nitrogen, and cardiac functional status, correlation of iodine 131 clearance rate factors with, 847
Pseudohypoparathyroidism (ab), 1101
Pubic bones, ossification of, at birth (ab), 566
Pulmonary alveolar microlithiasis, familial occurrence of, 947
artery, left, with respiratory obstruction, anomalous course of (ab), 561
brucellosis, chronic localized (ab), 560
changes, unusual, secondary to chest trauma, 1059
collapse, total unilateral; study of roentgen appearance in lateral view (ab), 181
embolism, pantopaque (ab), 938
function, clinical radiology and studies of (E), 1085
microlithiasis, clinical review of (ab), 559
oil embolism; complication of hysterosalpingography, 1055
structure, visibility of, with special reference to excised lung, 1071

Ra^{224} (Th X), retention and translocation of, in dogs, 503
Radiation and hormone therapy, combined, management of advanced breast carcinoma with special reference to, 438
cataracts and relationship to dose, clinical study of, 759
changes, early, in lymphatic tissues with antitoxin-producing ability, correlation of (ab), 194
conventional, versus supervoltage; symposium (ab), 570; (ab), 571; (ab), 572
damage, radioiron tracer studies for evaluation of, 836
damages, serious, following peteosthor-therapy of children (ab), 383
distribution and dose specification in volume implants of radioactive seeds, 863
doses, whole-body, estimation of, in accidental fission bursts, 144
dosimetry in biological research (ab), 193
exposures, maximum permissible, to man; preliminary statement of National Committee on Radiation Protection and Measurement, 910
fields, dosimetry of, by superposition of photographic films, 869
genetics, newer results in (ab), 943
mortality, statistical nature of mortality with especial reference to (ab), 383
planned combination of surgery and, in treatment of advanced primary head and neck cancers, 397
protection in angiography (E), 358
protection of ovaries from (ab), 189
protection, philosophy underlying (E), 914
therapy, basic aspects of (ab), 570
therapy; general theory, 531
therapy in treatment of retinoblastoma, 786
with Sr^{90}, influence on skin erythema of protraction and fractionation of (ab), 1108
Radioactive Au 198 in inoperable prostatic cancer; Report of necropsy study, distribution and concentration of (ab), 1107
colloidal gold and nitrogen mustard in treatment of serous effusions of neoplastic origin, comparative evaluation of (ab), 190
colloidal gold, treatment of malignant effusions by intracavitary injection of, 486
diodrast renogram; clinical study of new renal function test (ab), 563
gallium (Ga^{72}), studies of localization of, in bone lesions (ab), 191
gold colloids, influence of age, dosage and survival on effects of multiple intravenous injections of, in dogs, 476
gold, management of ascites with (ab), 1107
iodinated human serum albumin, statistical appraisal of use of, for detection of liver metastases (ab), 379
iodine in heart disease, results of treatment with (ab), 1106
iron studies in routine hematological practice (ab), 381

isotopes, clinical considerations on treatment of digestive tract carcinoma with (ab), 573
isotopes, course on clinical use of, 172
isotopes, role of, in carcinoma of maxillary antrum, 415
materials, study of methods for interstitial implantation of; filaments containing Y^{90}, 852
seeds, radiation distribution and dose specification in volume implants of, 863
sodium, clearance of, from cervix in women with normal menstrual cycles, primary dysmenorrhea, and nonorganic pelvic pain, and in postmenopausal individuals (ab), 573
strontium Sr^{89} in treatment of cancer, use of (ab), 189
tracers in radiobiological studies; Thirty-sixth Silvanus Thompson Memorial Lecture (ab), 946
urografin, investigation concerning distribution of, in human organism (ab), 367
Radioactivity in man and his environment; Presidential Address (ab), 382
in thyroid glands following nuclear weapons tests (ab), 383
Radiocardiography, experimental and clinical studies in, 493
Radiogold, lymphatic dissemination of, in presence of lymph node metastases (ab), 190
Radiographs, isotope, for localization of renal calculi during surgery; new truly portable radiographic unit using radioisotope (thulium 170) as energy source (ab), 1100
Radiography with thulium 170 and xenon 133 (ab), 192
Radioiodine, further clinical studies of thyroid and salivary gland function with (ab), 381
tests of thyroid function, clinical appraisal of (ab), 380
treatment of hyperthyroidism, new procedure for determining mass of thyroid gland for; pneumo-thyroid (ab), 379
Radioiron tracer studies for evaluation of radiation damage, 836
Radioisotope teaching program, present, for medical students in United States, 861
Radiologic disproportion, correlation of cephalopelvimetry to obstetrical outcome special reference to (ab), 1099
physics course leading to degree of Master of Science, 748
studies of intrathoracic goiters by means of transverse axial stratigraphy (ab), 182
Radiological physics, fellowship in, 748
study of placental stage of labor (ab), 562
Radiologist, gastrointestinal (E), 745
Radiology, clinical, and studies of pulmonary function (E), 1085
of small bowel inflammations; functional and organic signs of inflammatory affections (ab), 183
Radiosensitive bone tumors—radiological aspects (ab), 370
Radiosulfur, uptake of, in fractured humerus in rat (ab), 191
Radiotherapeutic practice, simplified method of estimating integral dose in (ab), 379
Radioyttrium (Y^{90}) for palliative treatment of effusions due to malignancy (ab), 191
Radium capsules and their associated hazards, 511
Rectum, perforation of, 66
Regional enteritis, duodenal involvement in, 639
Relative biological effectiveness of fast-neutron and x-radiation; survival and cataract studies of Swiss mice (ab), 945
of internal emitters (ab), 944
of neutrons, x-rays, and gamma rays, for production of lens opacities (ab), 945
of thermal neutrons and heavy particles from B^{10} (n, α) Li^7 reaction for acute effects in mouse (ab), 944
Renal calculi, isotope radiographs for localization of, during surgery; new truly portable radiographic unit using radioisotope (thulium 170) as energy source (ab), 1100
function test, new, clinical study of; radioactive diodrast renogram (ab), 563
papillitis, necrotizing, roentgen aspects of (ab), 367
vessels, arteriovenous fistula of (ab), 564
Renogram, radioactive diodrast; clinical study of new renal function test (ab), 563
Respiratory and gastrointestinal tracts, aeration of, during first minute of neonatal life (ab), 569
obstruction, anomalous course of left pulmonary artery with (ab), 561
Retinoblastoma, radiation therapy in treatment of, 786
Retroperitoneal pneumography, air embolism following; nationwide survey (ab), 1099
tumors, newer roentgenographic techniques in diagnosis of (ab), 565
Reynolds, Dr. Lawrence, awarded Gold Medal, 173
Rocky Mountain Radiological Society, 748
Roentgen appearance, accessory iliosacral joint and its, (ab), 941
appearance of total unilateral pulmonary collapse, study of, in lateral view (ab) 181
aspects of lymphangioma of colon (ab), 1098
aspects of necrotizing renal papillitis (ab), 367
changes following radical neck dissection (ab), 937
demonstration of gas in fetal circulatory system, valuable sign of fetal death (ab), 569
demonstration of placental calcification (ab), 187
features of fibrous dysplasia of skull and facial bones; critical analysis of thirty-nine pathologically proved cases, 71
findings and their interpretation; diverticulosis and diverticulitis, 726

irradiation as supportive therapy in management of Sudeck's atrophy (ab), 572
manifestations of milk drinker's syndrome (ab), 376
manifestations of space-occupying processes of orbits, contribution to (ab), 750
manifestations of unperforated aortic sinus aneurysms, 263
-radiation and fast-neutron radiation, relative biological effectiveness of; survival and cataract studies of Swiss mice (ab), 945
ray, cardiac physiology revealed by; applications of electrokymography, biplane angiocardiography and cinefluorography, 195
-ray energies, low, transition effect at, 881
-ray quality, effect of, on bone growth and cortical bone damage, 893
-ray report, negative, in cancer of colon (ab), 183
-rays and electrons, conventional and high-energy effects of, in fractionated dosage on rats (ab), 946
-rays, effect of, on uptake of phosphorus 32 by knee joint and tibia of six-week-old mice; relation of depression of uptake to x-ray dose (ab), 946
-rays, influence of, on development of mammary adenocarcinomas of mice inoculated with tumors containing inclusion bodies (ab), 384
rays, 180 kv., and 6 mev. electron beam, action of, on testicular tissue of rat (ab), 572
-rays, neutrons, and gamma rays, relative biological effectiveness of, for production of lens opacities (ab), 945
rays, preservation of potatoes after irradiation with (ab), 574
rays, use of, to establish identity of interchanged infants (ab), 569
screening of mammary tumor progression, 131
study of bone metastases from melanoma (ab), 372
therapy, contact, dosimetry in (ab), 193
therapy, report of case of hemangiopericytoma with special reference to, 347
Roentgenograms, lateral acetabular, studies of hip joint by means of (ab), 1103
Roentgenographic considerations in malignant lymphoma of gastrointestinal tract (ab), 1097
detection of minimal pneumothorax in lateral decubitus position; costophrenic sinus sign, 1066
examination of infants in incubator; new device insuring environmental constancy (ab), 758
findings, relationship of, to hemodynamics in mitral stenosis (ab), 1097
significance and incidence of calcification in choroid plexus of lateral ventricle (ab), 936
technique, new, of entire spinal column ("3-phase-technique") (ab), 755
techniques, newer, in diagnosis of retroperitoneal tumors (ab), 565
visualization of coronary arteries, 274
Roentgenography, calculation of the angle of anteversion by means of horizontal (ab), 1103
rapid intravenous, ninety per cent hypaque for (ab), 368
rapid serial, percutaneous splenoportal venography utilizing, 312
studies on effective principle of automatic exposure meters for (ab), 942
Roentgenologic aspects of Eisenmenger complex, 248
aspects of motor vehicle accidents, 115
determination of fetal length in utero (ab), 940
diagnosis of esophageal varices, 599
differential diagnosis of progressive, intradental resorption in permanent teeth (ab), 751
examination, gallstones impacted in stomach and duodenal bulb demonstrated by, 40
findings in splenic portography, 324
findings in stomach and duodenum in cancer of pancreas (ab), 185
manifestations of emotional disturbances in stomach (E), 162
study of ulcerating lesions of stomach, 612
Roentgenological appearance of normal adrenal glands (ab), 565
procedure, routine, high kilovoltage method of investigation of colon as, 690
Röntgen's X-ray tube at Smithsonian Institution, 172
Rokitansky-Aschoff sinuses of gallbladder, relationship of stenosis to, 47

Salivary gland and thyroid function, further clinical studies of, with radioiodine (ab), 381
Salivary glands, major, secretory sialography in diseases of, 575
Sarcoma of bone, primary reticulum cell (ab), 1104
Kaposi's, bone changes in (ab), 372
osteogenic, in rabbits, influence of splenectomy on induction of (ab), 384
Sclerosis, multiple diaphysial, 89
Scurvy following folic acid antagonist therapy (ab), 568
Segmental resection, upper lobe, lung expansion patterns following (ab), 752
Sequestrum, button, of eosinophilic granuloma of skull (ab), 936
Serous effusions of neoplastic origin, comparative evaluation of radioactive colloidal gold and nitrogen mustard in treatment of (ab), 190
Shunts, left to right, angiocardiographic mixing defects as indicators of (ab), 374
Sialography, secretory, in diseases of major salivary glands, 575
Silicosis, intra-abdominal egg-shell calcifications due to (ab), 754
Sinus of valsalva, aneurysm of, associated with coarctation (ab), 561
Skeletal abnormalities, congenital biliary atresia with emphasis on (ab), 941

Skull and facial bones, roentgen features of fibrous dysplasia of, 71
asymmetry and growth of; Barclay prize essay, 1956 (ab), 935
button sequestrum of eosinophilic granuloma of (ab), 936
ossification of, in cleidocranial dysostosis (ab), 936
Small bowel inflammations, radiology of (ab), 183
Society of Nuclear Medicine, Fourth Annual Meeting of, 929
Southern Radiological Society, 748
Spinal column, entire, new roentgenographic technique of ("3-phase-technique") (ab), 755
Spine, cervical, some aspects of neurology of (ab), 1101
Splenectomy, influence of, on induction of osteogenic sarcoma in rabbits (ab), 384
Splenic portography, roentgenologic findings in, 324
Splenoportal venography for evaluating abnormalities of portal circulation (ab), 757
percutaneous, utilizing rapid serial roentgenography, 312
Splenoportography, hemangioma of liver diagnosed by, 332
percutaneous, diagnostic importance of (ab), 569
valuable adjunct in study of portal hypertension (ab), 374
Spondylitis, infectious, as result of injury to anterior longitudinal ligaments; contribution to spondylitis subsequent to paravertebral anesthesia (ab), 755
Spot films, phototimed erect compression, in cholecystography, 55
Sr^{90}, influence on skin erythema of protraction and fractionation of radiation with (ab), 1108
Stenosis, relationship of, to Rokitansky-Aschoff sinuses of gallbladder, 47
Stomach, acute volvulus of, emphasizing management hazards, 627
and duodenal bulb, gallstones impacted in, demonstrated by roentgenologic examination, 40
hemangioma of, with roentgenologic diagnostic point, 38
roentgenologic manifestations of emotional disturbances in (E), 162
roentgenologic study of ulcerating lesions of, 612
role of irradiation in treatment of primary malignant lymphoma of (ab), 943
Stratigraphy, transverse axial, radiologic studies of intrathoracic goiters by means of (ab), 182
Subarachnoid space, contribution to methods of filling posterior fossa and, with small quantities of air (ab), 181
Sudeck's atrophy, roentgen irradiation as supportive therapy in management of (ab), 572
Supervoltage versus conventional radiation; symposium; comparison of conventional and supervoltage radiation in carcinoma of bladder (ab), 572
superior value of supervoltage irradiation in special situations; carcinoma of mouth and carcinoma of testis (ab), 570
treatment of inoperable carcinoma of breast with conventional 250-kv. irradiation as compared with 2-mv. irradiation (ab), 571
two cases treated with 800 kv. and 400 kv., respectively (ab), 570
Syndrome, milk drinker's, roentgen manifestations of (ab), 376
Morgagni's, and its relationship to intersexuality (ab), 369

Tantalum 182, use of, in treatment of early bladder carcinoma (ab), 944
Teaching program, present radioisotope, for medical students in United States, 861
Teeth, permanent, roentgenologic differential diagnosis of progressive, intradental resorption in (ab), 751
Telegamma apparatus, new (ab), 189
Tendons, hypercholesteremic xanthomata of, 109
Teleroentgenograms, chest, esophageal-pleural stripe on (ab), 937
Testicular tissue of rat, action of 180 kv. roentgen rays and 6 mev. electron beam on (ab), 572
tumors, malignant, treatment of, at Radiumhemmet in Stockholm (ab), 377
Testis and mouth, carcinoma of; superior value of supervoltage irradiation in special situations; symposium on supervoltage versus conventional radiation (ab), 570
Therapy, appraisal of statistical reports on results of, 886
conventional high voltage, comparison of, including vaginal cone therapy with supervoltage therapy; dose distribution and results in carcinoma of cervix, 803
Thermal neutrons and heavy particles from B^{10} (n, α) Li^7 reaction for acute effects in mouse, relative biological effectiveness of (ab), 944
Thigh, abdomen, and pelvis, arteries of, 296
Thoracic aorta, descending, dextroposition of (ab), 561
Thorotrast angiography, granuloma of neck following (ab), 375
Three-phase-technique; new roentgenographic technique of entire spinal column (ab), 755
Thrombosis, left atrial, angiocardiographic diagnosis of (ab), 374
Thulium 170 and xenon 133, radiography with (ab), 192
new truly portable radiographic unit using, as energy source; isotope radiographs for localization of renal calculi during surgery (ab), 1100
Thyroid and salivary gland function, further clinical studies of, with radioiodine (ab), 381
carcinoma, metastatic; acute myeloid leukemia

following prolonged iodine-131 therapy for (ab), 380
function, clinical appraisal of radioiodine tests of (ab), 380
function in Legg-Perthes disease (ab), 1106
function studies in children: Normal values for thyroidal I^{131} uptake and PBI^{131} levels up to the age of 18 (ab), 1106
glands, radioactivity in, following nuclear weapons tests (ab), 383
I^{131} content between 8 and 48 hours as an index of thyroid activity, the change in (ab), 1105
states. The correlation between the uptake of I^{131}, protein-bound iodine and cholesterol levels in normal and abnormal (ab), 1105
Tibia and knee joint of six-week-old mice, effect of x-rays on uptake of phosphorus 32 by (ab), 946
Timer, electronic position, for fluoroscope (ab), 376
Tin oxide; new hepatolienographic agent, 64
Total body irradiation, single, mortality of rhesus monkeys after, 899
Tracer studies, radioiron, for evaluation of radiation damage, 836
Transition effect at low roentgen-ray energies, 881
Transosseous venography and osteomyelography, dangers and technique of (ab), 757
Traumatic torsion of left lung (ab), 752
Treatment cones, influence of, on dose rate, 873
Tuberculomas and hamartomas of lung, 1013
Tuberculosis and histoplasmosis, calcified intrathoracic lesions caused by, 1034
upper lobe, segmental localization of; rarity of anterior involvement, 1042
Tuberculous lung lesions, test of photofluorogram interpreters by use of phantoms which produce false infiltrates similar to, 1077
Tumor, primary bone, metastatic adenocarcinoma simulating, 452
progression, mammary, roentgen screening of, 131
Tumors containing inclusion bodies, influence of roentgen rays on development of mammary adenocarcinomas of mice inoculated with (ab), 384
epigastric, intraserosal and extraserosal parietography applied to study of (ab), 562
retroperitoneal, newer roentgenographic techniques in diagnosis of (ab), 565
testicular malignant, treatment of, at Radiumhemmet in Stockholm (ab), 377

Ulcer, gastric, in older age group, 25
Ulcers, multiple chronic gastric; report of case with four simultaneous ulcers, 623
United States Atomic Energy Commission, special fellowships available through, 172
Urethrocystography in differential diagnosis of prostatic cancer (ab), 564
Urografin, radioactive, investigation concerning distribution of, in human organism (ab), 367
Urology, surgical spread of cancer in (ab), 1100

Vena cava, inferior, phlebography of, in exploration of right kidney tumors (ab), 368
superior, phlebographic study of, 289
Venography, percutaneous splenoportal, utilizing rapid serial roentgenography, 312
splenoportal, for evaluating abnormalities of portal circulation (ab), 757
transosseous, and osteomyelography, dangers and technique of (ab), 757
Ventricle, lateral, incidence and roentgenographic significance of calcification in choroid plexus of (ab), 936
third, paraphyseal or colloid cysts of (ab), 559
Ventriculography, cardiac; direct transthoracic needle puncture opacification of left (or right) ventricle, 207
Vertebral osteophytosis; clinical syndrome (ab), 1102
trans-skeletal phlebography (ab), 374
Visualization of configuration and structure of liver, method for; preliminary clinical investigations, 455
Volvulus, acute, of stomach emphasizing management hazards, 627
of entire small bowel in immediate postoperative period (ab), 754

Water intoxication; report of fatality following barium enema, 69
West, Theodore, 1885–1957, obituary, 1088
portrait, 1088
Whole-body radiation doses, estimation of, in accidental fission bursts, 144

X-radiography with beta-emitting isotopes (ab), 382
Xanthomata of tendons, hypercholesteremic, 109
Xenon 133 and thulium 170, radiography with (ab), 192

Y^{90}, filaments containing; study of methods for interstitial implantation of radioactive materials, 852
(radioyttrium) for palliative treatment of effusions due to malignancy (ab), 191
